

What Is This Module About?

Have you ever tried to enroll in a school or apply for a job? What were the requirements that you had to accomplish? Did the school or the company ask you to fill up some forms? If you were, then you have an idea of what this module is about.

Forms are documents that you have to fill up as a requirement for admission to a school or to a job. These are important because they tell the school or company about you. There are many types of forms. For example, a bio-data is usually required when you apply for a job. Another example is a request form for a community tax certificate. We fill up this form when we secure a community tax certificate. This certificate is required for many other documents and is proof that you live in a certain locality. When you sign a contract or any legal document, a community tax certificate number is required.

This module shall teach you how to fill up important forms accurately.

At the end of this module, you should be able to fill up the following forms completely and accurately: a bio-data; an income tax return; a community tax certificate request form; a driver's license; a registration form; and election ballots.

This module is made up of three lessons:

Lesson 1 – *Filling Up Forms*

Lesson 2 – *Filling Up Other Forms*

Lesson 3 – *Accomplishing an Income Tax Return*

What Will You Learn From This Module?

After studying this module, you should be able to:

- ◆ tell why it is important to fill up forms accurately;
- ◆ identify the different parts of a form;
- ◆ follow written directions in a document; and
- ◆ fill up various forms accurately.

Let's See What You Already Know

Before studying this module, look at the following list of forms. Check the corresponding boxes beside the forms that you are already familiar with and know how to fill up.

- ☐ Bio-data
- ☐ Community tax certificate
- ☐ Income tax return

If you checked all the forms, then you are already familiar with the topics that will be taken up in this module. This module shall then help you to review how to fill these up completely and accurately. If you didn't then study this module carefully, it will help you fill up these forms step by step.

Filling Up Forms

Do you know what forms are? Have you seen or filled up a form before? Was it difficult?

Filling up forms is an important skill that needs to be learned. Forms often require a lot of information. Do you know what this information are about and why is it important for us to be accurate?

A form often requires a lot of information. Forms ask for information or data such as your name, address, date and place of birth, names of your parents, educational background and so on. This information must all be provided in a complete and accurate way. This is a skill that has to be learned; otherwise, you may provide wrong or incomplete information. Forms have many uses. They are used for gathering information, registration, identification and certification.

In this lesson, you will practice filling up a bio-data form.

After studying this lesson, you should be able to:

- ◆ tell why it is important to fill up forms neatly, accurately and completely;
- ◆ fill up a bio-data form; and
- ◆ identify errors when filling up forms.

Let's Try This

Compare your list with the one in the *Answer Key* on page 38. Did you get the correct answers?

What did you learn from this activity? You just learned that a form requires a lot of information. The good news is that you know most of these because they are about you.

All forms must be filled up correctly, completely and neatly.

Generally, the importance of a form depends on its type. The word **bio-data** comes from two words, *bio* meaning “life,” and *data* meaning information. It provides a school or company important information about a person. All the information required tell the people you are dealing with — the school or company — about you and your experiences. This information will be used to evaluate whether you are qualified for a job or eligible for enrollment in a school. See how important it is to fill up forms accurately, completely and neatly?

Aside from a bio-data, there are many other forms that you need to learn how to fill up. Some of these forms shall be discussed in the next two lessons.

Let's Study and Analyze

Gani wanted to apply as a security guard. He went to the Mabuhay Security Company where he was requested to submit his bio-data. He bought a bio-data form from a bookstore. He filled up the form and submitted it to the company for evaluation.

Above is a part of Gani's bio-data. Read it carefully. Do you think it will give a good impression of Gani? Why/Why not?

Based on Gani's bio-data, will you hire him? Why/Why not?

Compare your answers with those in the *Answer Key* on page 38.

Look at the way Gani's bio-data form was filled up. Notice that Gani may not be accepted for the job he applied for. He made a lot of mistakes in his bio-data and therefore might not create a very good impression.

A bio-data has to be filled up completely, accurately and neatly because it tends to give a school or company an impression of you. To create a good impression therefore, you must learn to fill up a bio-data properly.

Study Gani's bio-data again.

Do you think Gani can improve it?

The parts of a bio-data are listed below. Check the corresponding boxes of the items Gani filled up properly and cross out those he did not.

Filling Up Other Forms

In Lesson 1, you practiced how to fill up a bio-data form neatly, completely and accurately. You also learned what forms are and how important they are in your daily life. Aside from bio-datas, there are many other kinds of forms. These include community tax certificate request forms, drivers' licenses, election ballots, registration forms and survey forms.

This lesson shall tell you how important these forms are as well as how to correctly fill them up. Note that these forms generally require information that are also present in a bio-data. You may then apply what you already learned in Lesson 1.

After studying this lesson, you should be able to neatly, correctly and accurately fill up a community tax certificate request form, a driver's license, an election ballot, a registration form and a survey form.

Let's Read

Read the following and find out about the other kinds of forms we usually fill up.

Pepito is the son of farmer who just turned 18 a week ago. His father was considering teaching him how to drive so he can help deliver their produce. So, one day . . .

Father: Do you want to help me at work, Pepito?

Pepito: Of course, Father. How can I help you?

Father: See, *ih*o, my sight is not as good as it used to be. I need someone to drive for me whenever I go to the market to deliver our farm produce. So, I'm planning to teach you how to drive. But first, why don't you go to the municipal hall and get a community tax certificate, Pepito?

Pepito: Sure, Father. I'll just change and go now.

After a few months, Pepito learned how to drive and was ready to get his own driver's license. So, he went to the Land Transportation Office . . .

Pepito: Good afternoon, ma'am. I would like to apply for a driver's license. What am I supposed to do?

LTO Personnel: You just have to fill up this form here and submit all the necessary requirements.

After some months, Pepito decided he wanted to become a member of the youth organization in their town. So, he inquired from their office the following day . . .

Pepito: Excuse me, my name is Pepito de Jesus and I would like to become a member of your organization.

Youth Club Member: Oh, that is so nice to hear. Just fill up this registration form and pay the small fee and you're all set.

Pepito: Thank you. I heard a lot of good things about your club.

Youth Club Member: That's good. You might know some friends who also want to join . . .

Pepito: Yes, I might. Don't worry, I'll inform them.

Youth Club Member: Thank you and we'll see you during the orientation next week.

Soon the election period arrived. The youth organized a survey on who would make the best leaders for their town.

Pepito: Good morning, sir. We are part of the Youth in Action Organization and would like you to be part of the survey that we are conducting regarding the upcoming elections.

Community Member: Good morning to you too. So, what should I do?

Pepito: You just have to fill up this survey form then we'll be on our way.

Community Member: Sure, why don't you come in and sit down while waiting for me to finish.

When election day finally arrived, Pepito was so excited to vote for the first time. He went to the precinct as early as he could . . .

Pepito: Hello, ma'am. I'm here to cast my vote.

Election Inspector: Okay, just fill up this ballot and then come to me so I can tell you what to do next.

Pepito couldn't believe a year had already passed. He learned a lot and is now more ready to take on the next years of his adult life.

Let's Learn

Do you know what a community tax certificate is for? Why do we pay a community tax anyway?

The amounts the government gets from our community taxes go into their funds for building roads, bridges and the like for the people of a certain community. A tax

certificate ensures that everyone who has it has paid his/her due and can avail of the services and structures that a local government provides.

Have you ever seen an application form for a community tax certificate before? How does it look?

If you have never seen one, look at the example shown below.

CITY OF MANILA

2. **Residence tax due**—is dependent on whether you have a job or not and how much you actually earn plus the basic residence tax due.
3. **Basic residence tax due**—refers to the basic amount the taxpayer has to pay aside from how much he/she will be charged based on his/her earnings per year.

An election ballot is very easy to fill up. You just have to remember the names of the candidates that you will vote for. Then just follow the instructions the election inspector will give you.

Let's Try This

Among the candidates in the 2001 elections, who did or would you most likely vote for? List them down in the blank ballot given in *Let's Learn* found on page 22.

Did any of your choices win?

Filing up registration and survey forms are similar to how we fill up all the other kinds of forms we have already studied. Just be honest with all your answers to the given questions.

Let's See What You Have Learned

Fill up the following school registration form.

Let's Remember

- ◆ Different kinds of forms require different kinds of information. But all these have something to do with whatever the form you are filling up is for. If, for example, you are applying for a driver's license, the information that the form asks for have something to do with your driving skill.

Accomplishing an Income Tax Return

In the previous lessons, you learned how to fill up different kinds of forms such as a bio-data, an application for a community tax certificate and a driver's license, an election ballot, a survey form and a registration form. These forms are relatively easy to fill up since they require simple information.

To further develop your skill in filling up forms accurately, you shall now learn how to accomplish an income tax return.

After studying this lesson, you should be able to:

- ◆ describe how an income tax return looks; and
- ◆ fill up an income tax return accurately.

Let's Learn

Every good citizen files an income tax return every year. Do you know how to accomplish an income tax return properly? Don't worry if you don't just read this lesson carefully to find out how.

The **income tax return (ITR)** is proof of payment for your annual income tax. People who are working, like your parents, fill up this form. An ITR provides information about your income and the amount of tax you need to pay every year. It can also prove your capacity to pay for your credit card or other bills. It may also be required when applying for a visa when you go abroad or for a loan.

Let's Study and Analyze

Nena is the owner of a small *sari-sari* store. She accomplished the following income tax return. Do you think she filled it up properly? Why/Why not?

Part I

- ◆ **For the year**—indicates the year for which the income tax return is being filed. For example, if you plan to pay your taxes for the year 1999, put “1999” in this portion.
- ◆ **Amended return**—put an 7 in the box that describes the type of income tax return you are filing. Are you paying for taxes that you failed to pay before?
- ◆ **Number of sheets attached**—depends on whether you attached sheets to the income tax return or not. If you did, then you should indicate the number of pages that you attached. For example, if you attached three pages to the form, then write “03.”
- ◆ **RDO Code** (Taxpayer’s and spouse’s)—this portion is filled up by a Bureau of Internal Revenue representative.
- ◆ **Exemption status**—one can either be single, the head of the family or married. If you are not married, put an 7 in the box before “Single.” If you are the head of the family, put an 7 before “Head of the family.” If you are married but are not the head of the family, put an 7 in the box before “Married.”
- ◆ **Number of qualified dependent children**—refers to the number of children who depend on you for support, that is, 18 years old or below. For example, if you have three children, write “3” in the box.
- ◆ **Is the wife claiming the additional exemption for qualified dependent children?**—refers to whether your wife is claiming the exemption or not.

The next items in the income tax return require doing some computations. But don’t worry, this module will teach you how to compute for the values properly. You can ask the help of the city or municipal clerk for this part if you find difficulty later.

But for now just read on and follow directions carefully.

Part II

- ◆ **Gross taxable compensation income (Taxpayer’s and spouse’s)**—refers to how much you and your spouse received as compensation for your work. Note that your and your spouse’s gross taxable compensation income should be written in separate boxes.

For example, if your monthly income is ₱5000 you must multiply that by 12 for 12 months in a year and you will get:

$$₱5000 \times 12 = ₱60000$$

- ◆ **Other taxable income (Taxpayer's and spouse's)**—refers to incomes you get from businesses or properties.
- ◆ **Gross taxable income (Taxpayer's and spouse's)**— refers to the sum of the gross taxable compensation income and other taxable income.

Gross taxable income = Gross taxable compensation income + Other taxable income

For example, if your gross taxable compensation income is ₱60000 and you earned ₱20000 more from other sources that year, then your gross taxable income will be:

$$₱60000 + 20000 = ₱80000$$

- ◆ **Less: Total personal and additional exemptions (Taxpayer's and spouse's)**—refers to exemptions given by the BIR to us. Since different people receive different exemptions, it would be wiser to ask a BIR representative about this. Paying for health or hospitalization insurance can give you additional exemptions.
- ◆ **Total (Taxpayer's and spouse's)**—refers to the total amount of exemptions.
Total = Total personal and additional exemptions + Amount or premium paid for health and hospitalization insurance
- ◆ **Taxable income (Taxpayer's and spouse's)** — refers to the difference between your gross taxable income and your exemptions
Taxable income = Gross taxable income – Exemptions
- ◆ **Tax due (Taxpayer's and spouse's)** — depends on the amount of your taxable income. The following guidelines will help you determine how much you should pay:

1. If your taxable income is over ₱10000 but less than ₱30000, you should pay ₱500 plus 10% of the amount in excess of ₱10000. For example, if your taxable income is ₱12000, then you should pay:

$$₱12000 - 10000 = ₱2000$$

$$₱2000 \times 0.10 = ₱200$$

$$₱500 + 200 = ₱700$$

2. If your taxable income is over ₱30000 but less than ₱70000, you should pay ₱2500 plus 15% of the amount in excess of ₱30000. For example, if your taxable income is ₱32000, then you should pay:

$$₱32000 - 30000 = ₱2000$$

$$₱2000 \times 0.15 = ₱300$$

$$₱2500 + 300 = ₱2800$$

Look at the back page of the income tax return form. There you will see a tax table which will tell you how to compute for your tax due if you have a taxable income greater than the examples given earlier.

Now, let us continue with the other items in the form.

- ◆ **Aggregate tax due** — refers to the sum of your and your spouse's tax due. For example, if your tax due is ₱700 and your spouse's is ₱400, you should get:

$$₱700 + 400 = ₱1100$$

If you are still single, you are not required to fill up this box.

- ◆ **Less: Tax credits/Payments (Taxpayer's and spouse's)** — refers to the amount which will be subtracted from your tax due. This includes the amount deducted from your salary every month. You may inquire from the city/municipal clerk regarding this.

1. **Tax withheld per BIR form no. 2316 (Taxpayer's and spouse's)** — refers to the amount of tax that is deducted from your monthly salary. Your office issues a certification of withholding tax collected every year before April, the time for paying income tax. If you do not receive such certification, just ask your finance department how much is withheld for taxes from your monthly salary. Multiply this by 12 (for the 12 months of the year) to get the total tax withheld. For example, if ₱100 is withheld from your salary every month, you should pay:

$$₱100 \times 12 = ₱1200$$

2. **Foreign tax credits (Taxpayer's and spouse's)**—only filled up if you paid taxes in another country.

- ◆ **Tax paid in return previously filed, if this is an amended return (Taxpayer's and spouse's)**—only filled up by those who are paying for their taxes on installment basis. Just indicate the amount you have already paid.

- ◆ **Total tax credits/payments (Taxpayer's and spouse's)**—refers to the total of the tax withheld + foreign tax credits + tax paid in return previously filed.

For example, if your:

Tax withheld = ₱1200
Foreign tax credits = 0
Tax paid in return previously filed = ₱800

You should then pay:

$$₱1200 + 800 = ₱2000$$

- ◆ **Tax payable (Taxpayer's and spouse's)**—refers to the difference between your tax due and your total tax credits/payments. For example, if your tax due = ₱2800 and total tax credits/payments = ₱2500, you should get:

$$₱2800 - 2500 = ₱300$$

- ◆ **Add: Penalties (Taxpayer's and spouse's)**—refers to the additional amount you have to pay, for example, for filing your annual income tax return late. But don't worry, a BIR representative will take care of this.
 1. **[Add]: Surcharge (Taxpayer's and spouse's)**—refers to the additional amount you have to pay because you did not file your income tax return on time.
 2. **[Add]: Interest (Taxpayer's and spouse's)**—refers to the amount you are charged if you have not been paying your taxes for a long time, usually 20% per annum of the amount of tax you should pay.
 3. **[Add]: Compromise (Taxpayer's and spouse's)**—rarely charged to a person and so is not something you should worry about.
- ◆ **Total penalties (Taxpayer's and spouse's)**—refer to the sum of the surcharge, interest and compromise. For example, if your surcharge = ₱200, interest = ₱150 and compromise penalty = 0, you should get:

$$₱200 + 150 = ₱350$$
- ◆ **Total amount payable (Taxpayer's and spouse's)**—refers to the sum of the tax payable and total penalties. For example, if your tax payable = ₱300 and penalties = ₱350, you should get:

$$₱300 + 350 = ₱750$$
- ◆ **Aggregate (combined) amount payable**—refers to the sum of your and your spouse's total amount payable. For example, if your total amount payable = ₱750 and your spouse's total amount payable = ₱650, you should get:

$$₱750 + 650 = ₱1400$$
- ◆ **Less: Amount paid in this return/first installment**—refers to the amount of tax you plan to pay in this return.
- ◆ **Amount still due on or before July 15, if taxpayer is allowed to pay on installment**—refers to the difference between the aggregate amount payable and amount paid in this return/first installment if you decide to pay on installment. For example, if your aggregate amount payable = ₱1400 and amount paid in this return/first installment = ₱500, you will get:
